Important events to be reported: Completion of acquisitions

The management of Premier Energy PLC (hereinafter referred to as the "Company") informs the market that the Company's subsidiary, Alive Renewable Holding Limited, has finalized the acquisition of a 90% stake in Development Power Solar Energy S.R.L, a company which owns ready-to-build rights for developing a 49 MW DC solar plant alongside a 16 MWh battery storage facility in Buzau County, Romania. The Company estimates that the completion and commercialization of the plant will occur in the second half of 2025. The signing of the acquisition was previously announced by the Company on 17 June 2024.

Furthermore, the Company's subsidiary from the Republic of Moldova, "Navitas Energy" S.R.L., has acquired a 100% stake in "Elteprod Wind" S.R.L., a company owning 16,238 sq. meters of land near the town of Stefan Voda, Republic of Moldova. The Company will analyze whether it could potentially develop an 8 MW wind plant on this site.

These acquisitions confirm Premier Energy's strategy to continue targeting new strategic acquisitions and developing new projects in the field of renewable energy generation as part of its vertically integrated business model, which includes the sale of electricity to approximately 2.3 million customers in Romania and the Republic of Moldova. Management believes that once completed, these renewable electricity generation assets will contribute to strengthen the energy security in the region and help in combating climate change.
